

## ■ Dr. Kristopher & Rebecca Hartwig

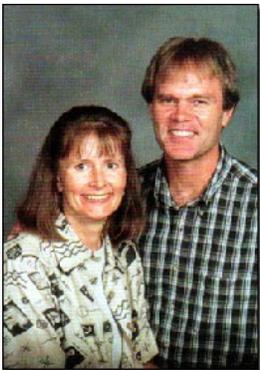

As of July 2010, Trinity signed a "Missionary Sponsorship Covenant" with the ELCA for Dr. & Mrs. Hartwig. They replaced Todd and Lori Byerly whom Trinity sponsored for several years through St. Paul's Lutheran Church, Davenport. Dr. Hartwig was in a family Medicine group and Country Hospice Program in the USA before returning to Arusha, Tanzania. He currently serves the Evangelical Lutheran Church in Tanzania by developing hospice and palliative care services, and in particular, by integrating with other aspects of HIV/AIDS work throughout Tanzania. Rebecca is involved in various orphan programs in the Arusha area. Two of their five children, Heidi and Nathan, live with them in Tanzania.

## ■ Randy and Carol Stubbs

[Visit the Randy and Carol Stubbs website](#)

Randy and Carol along with their children Megan, Marissa, and Nathan are living in Usa River, Tanzania where they are both serving in the Music Department of Makumira University, a university/seminary of the Evangelical Lutheran Church of Tanzania. They are serving full time under letter of agreement with the ELCA.

## ■ Dr. Steve and Bethany Friberg

### Friberg Mission

Dr. Friberg is a pediatrician, and his mission assignment is "Rural Health Care." He travels from clinic to clinic throughout Tanzania providing medical care for all in need. His degree in pediatrics enables him to provide special care for children. He was raised in Africa, and his father was a Lutheran missionary. He plans to make mission ministry his lifetime work. Steve and Bethany have three children, twin boys Nyika and Zaka and a girl, Shalai.

Dr. Friberg was called by the Diocese in the Arusha Region to coordinate the renovation and reactivation of 12 rural dispensaries in the north Maasai area. Some of these dispensaries are not staffed. This means that no medical help is available to the people except Selian Hospital, a walk of several days. Dr. Friberg was invited to repair the facilities, one dispensary at a time, and to provide medical care, traveling from his home base in Kitumbeine. As Tanzanian medical staff are available and assigned, he will mentor them and coordinate the work of the dispensaries.

## ■ **Dr. Mark and Linda Jacobson**

The Jacobsons have been medical missionaries in Tanzania since 1985. Mark shares his time between directing Selian Hospital that he founded, community health outreach and a major campaign to battle AIDS. In addition, he was the driving force for the building of a second hospital located within the city of Arusha, to which Trinity gave a sizeable donation through the Forrest A. Reid estate plus other gifts for equipment and supplies. The Arusha hospital was completed and began serving patients in January, 2009.
